Gov. Smith, of Georgia, has armed the whites and blacks of his State, and has succeeded in arousing a great deal of military spirit. Lively times may be looked for in the Goober State one of these days.

THE present Congress contains seven negro members, and the National Monitor predicts that the delegation will be largely increased at the fall elections. From the fourth of March next, Mississippi will be represented in the Senate for six years by a black Bruce. He is a backelor, and would do well to remain so, as it is generally understood that Pinchback's Senatorial aspirations were defeated by a conspiracy of the Senatorial wives who couldn't associate with Mrs. Pinchback, although their husbands passed the Civil Rights bill by a heavy majority.

BANK RESERVES AND MUTILATED CURRENCY. The diverse constructions put on the

Sunday we published his view that all bank reserves were abolished except the five per cent. of circulation to be deposited in the Federal is said, of an interview with Secretary Bristow. According to the Washington correspondent of the Cincinnati Commercial the department now views the law in exactly the same light that we presented it to our readers a week ago. The old per cent. of reseves on deposits is still required "to be kept on hand" by the banks. The reserves on circulation are abolished, but an amount of the deposit reserves equal to five per cent. of circulation must be kept at the Treasury. Gen.
